

Fields Consultants Inc.

Offshore Services- Systems Integration and Development

Compatible OS: Linux, Windows, Unix

Compatible Hardware Platforms: Linux/Unix based Servers, Windows 2003 Servers

Fields Consultants Inc. is a niche and prestigious technology consulting services organization based in Schaumburg, Illinois, USA. We provide world-class technology consulting solutions to our customers' business needs. Our strength is comprehensive end-to-end consulting across the implementation lifecycle, including requirements gathering, architecture designing, reengineering, testing, deployment and maintenance.

Offshore Systems Integration and Development:

We have a complete offshore application/product development methodology that provides a scalable blueprint for delivery of cost-effective integration, development, and maintenance solutions for our US based clients. Engagements can be structured on a time-and-material basis or fixed-cost bids. Assignments can be performed at the client site or at Fields local and offshore facilities.

We offer both offshore and onshore System Integration and Application Development Services in the following areas:

FEATURES & BENEFITS

- ◆ E-Business Integration and Enterprise Development
- ◆ Application Software Development and Maintenance Support (24x7) using RUP Methodology
- ◆ DB2, Oracle, SQL Server and MySql database Design, Development and 24x7 Maintenance Support
- ◆ IT Consulting, 3rd Party Tools and Applications-Assessment, Integration and Deployment
- ◆ IT Infrastructure-Systems, Networks, Databases-Assessment, Integration and Deployment

SYSTEM REQUIREMENTS

- ◆ Rational Unified Process methodology is used in all of our development projects
- ◆ CMMI best practices used to ensure quality development
- ◆ High Quality Assurance at each step of software integration and development
